Map of the Mysterious Island / Ile Lincoln. I recently began reading Jules Verne's The Mysterious Island, (freely available as e-text), and soon found that not only was it important to have on-hand the map of the island while reading, but there did not seem to be any good maps available online in English. Even the maps printed in books are crude and barely legible prints.

When New Line said they were making Journey 2: The Mysterious Island we were (understandably) skeptical. The first film - a.k.a. the Brendan Fraser-starring Journey to the Center of the Earth 3D - might've been a financial success (\$240 million on a \$60 million budget), but it wasn't exactly adored by critics, and if history was any indicator, the sequel was likely to pale in comparison.
